Liquidity exit strategies offered may not include all options and may vary over time; all exit options, including historic options such as cash, may not be available or offered to prospective customers at any given time; your options may differ. Exit options are presented on a case-by-case basis in Ben's discretion and may be offered for less than current net asset value based on a variety of factors, including asset-specific factors such as Ben's valuation analysis. References to "liquidity" generally refers to an opportunity offered by Ben to exit an investment in an illiquid asset. Ben can discuss with prospective customers what options may be currently available, including based upon the specifics of such customer's situation and illiquid assets.
